Dear Sir or Madam:

The Air Resources Board (ARB) staff invites you to participate in the second in a series of workshops to discuss potential updates to the State's on-road and off-road motor vehicle emissions inventory. We are particularly interested in any comments or suggestions that you may have regarding these emissions inventory updates. Enclosure 1 presents the workshop agenda.

The proposed updates are necessary to support the development of the 2007 and 2008 State Implementation Plans (SIPs) for the federal ozone and particulate matter standards. To ensure there is adequate time to complete the necessary air quality modeling in support of the SIPs, we intend to finalize any emissions inventory modifications by June 30, 2005.

Workshops will be held in northern, southern, and central California as noted below:
